GLADSTONE:
Oxley: bad
entrance, no water,
no timber

**1847 Gladstone was
going to be the
capital of North
Australia**

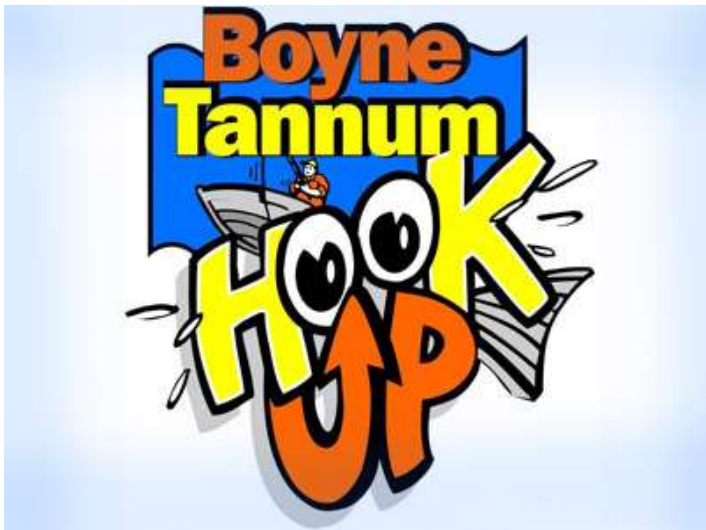

**The settlement
failed in 3/12**

Perception

An aerial photograph showing a coastal area with a large body of water in the foreground. A narrow strip of land, Boyne Island, is visible in the middle ground, surrounded by water. To the right of the island, a large area of land, Tannum Sands, is visible, featuring a mix of green vegetation and urban development. In the background, a range of mountains stretches across the horizon under a clear blue sky.
